Fundamentals	90 %

Certification testing is a means of measuring your knowledge and skill level. It can also be used to identify areas that need improvement and areas of strength. It can be used as a tool for further learning and future achievement.

Sun Educational Services offers a variety of tools to help you in your career. By logging on to our certification database, you can find scores for examinations you have taken, confirm or update your address, track your certification progress, and submit questions to the Sun Educational Services' Certification Department.

This assistance is available online at http://www.certmanager.net/sun/.

To help you further your growth and achievement in the Java language, Sun Educational Services offers a wide variety of instructor-led training (ILT), web-based training, and media-based training that can help you prepare for future certification examinations. You can find information on these offerings, as well as

further information on certification examinations online at the Sun Educational Services Web site at:
http://suned.sun.com/US/certification/.

Prometric thanks you for taking a Sun Microsystems Certification Test at an Authorized Prometric Testing Center. **Important Note**: In order to aid processing of Sun certification materials, please verify your name on this score report (as it will appear exactly as spelled on your certificate) **and** your address as shown on this score report for all certification material delivery and correspondence. For address changes or name spelling corrections, please email the corrections to SunCert@Prometric.com and our customer service representative will make the requested change.

Notice Any Cheating?

Dear Test Candidate: In the event that you notice any other candidates cheating during your test session, or misconduct by a test center employee, please report your observations to the email address below.

Thank you very much for your help!

Dear Ralf,

I would like to congratulate you on becoming a Sun Certified Programmer for the Java™ 2 Platform, Standard Edition 6.0.

The challenging examination you passed was designed to ensure that only those of sufficient understanding and skill would be certified. You have demonstrated your understanding and skill with the Java programming language, and thus merit certification. In addition to this accomplishment, you have chosen to be certified by Sun Microsystems, Inc., the owner of the Java brand technology and the leader in platform-independent technology. Thus, you are now certified by Sun at the Programmer level.

To assist you in sharing your achievement with your co-workers and friends, we have enclosed your certification credentials for this program.

Should you desire information about other Sun Educational Services' training and certification programs, allow me to direct you to our web site at http://suned.sun.com.

I thank you for demonstrating your excellence on the Java platform. Enjoy the personal and professional satisfaction that comes with your Programmer certification.

Best Regards,

Gary Fluitt
Sun Certification Manager

Dear Sun Certified Professional,

I would like to congratulate you again on becoming a member of the Sun Microsystems Inc. ("Sun") Certified Professional family. This certification is an achievement which is earned only by selected individuals who demonstrate their knowledge across various skill sets using Java programming language.

We have developed a new program logo which will help provide you with a unique identity in the community of professionals focused on the Java programming language. We would like to extend the opportunity for you to use our new program logo on your business cards and stationary. If you are interested in using the Java Technology logo, please visit the following URL:

http://logos.sun.com/logosite.jsp?Category=third&Logo=java-cert-prog&Page=requestclick

The Java Technology URL will contain a trademark license agreement that permits Sun Certified Professionals to use the new logo in accordance with the terms and conditions of our program.

Please review the agreement, and if you are interested and agree to all of the terms, please click on the "More Information / Request Logo" button and complete the application. Sun will notify you of your unique user id and password to access the logo via secured web site.

Because we provide access to the logo chiefly through the Internet, it is important to include your Email address. If you don't have access to the Internet, however, we will provide you with the logo artwork and guidelines by mail.

If you have any questions, please contact our Customer Service Representative at who2contact@sun.com.

Best Regards,

Gary Fluitt
Sun Certification Manager
